# Cellular Imaging with Volocity

High performance, 3D imaging software

Improvision® is pleased to present Volocity®, a complete solution for 3D and 4D cellular imaging. Volocity provides a full suite of tools to acquire, view, analyze and publish 3D and 4D data.

- **Volocity Acquisition** – rapid 3D and 4D image capture
- **Volocity Visualization** – high resolution rendering in 3D and 4D
- **Volocity Quantitation** – object detection, measurement and tracking in 3D and 4D
- **Volocity Restoration** – image restoration in 3D and 4D
- Available for Windows® and Mac® OS

To find out more about Volocity please visit us at the forthcoming event !

Volocity 3D Imaging Software Training

Date: 27th March
Location: Dundee University College of Life Sciences
Room: WTB Seminar Room
Time: 9.30 – 12pm - Volocity 5 Training Workshop
1 - 5pm - Individual Lab-Group Sessions
